

NEWSLETTER - JANUARY 1959

Thank you all for your many cards, photos, stamps and messages which came my way from you at Christmas. I loved them all. Just twenty-one years ago this January 1st the future Department of Anesthesiology was conceived, somewhat inauspiciously with an open drop ether anesthesia for a gastrectomy! After gestation of 14 years, the department was delivered in excellent health. It is still reproducing at a remarkable rate. If the health of our specialty can be judged from resident applications, we are in for a long and healthy life.

At last I was able to attend the P.H. Anesthesia Alumni dinner at the Brass Rail during the New York December meetings. It was wonderful to see so many of you again. Lennie reports that 100 people in all came. Do plan on it if possible every December. The meetings were excellent as usual, with Dunc Holaday, Stan James and Frank Moya on panel discussions, and Jack Frumin with a scientific exhibit; also, Seamus Lynch on T.V. Our department is pleased to be host to the meeting of the A.U.A. or Association of University Anesthetists this month, for the first time.

Several of you visited us during the year. Viola Grollimund is on hand to greet all of you, all generations. Especially glad were we to see Raquel Santos of Chile, back for the first time in 12 years. Bernardo Duran, George Galos, Bernie Krasner, Fred Hehre, George Moonie and George Warner were some other welcome former residents. George since has been laid low with Hepatitis, but will be back at work soon. Gladys Barrett has moved up to the Portchester, N.Y. Mary Harkness Convalescent Home to be assistant director. Miss Penland in her usual Christmas gesture, brought in the interest from the modest fund we gave her at her retiring party, in the form of a huge box of candy. News of U.J. from California is that she is thriving under a palm tree.

We are sad to report the death of John Code, on Feb. 20, 1958 of a coronary attack. Our sympathy also is extended to Jean Henley in the loss of her Mother and Don and Claire Stein in the loss of Claire's Mother.

My travels this year, beyond the eastern area, took me to Montreal in January, Milwaukee in May and a week in San Francisco in June for the AMA meetings. A stop-over in Denver was most welcome, personally conducted by the Steins. In California, was delighted to see Joe Bartels, Bob Simner and Carter Ballinger. Manny had a fine trip in Europe in April. Jean Henley came back from Russia full of international ideas as well as pictures. The more we can visit each other, with open minds, the smaller the world becomes.

Since this letter is being written from Baltimore, of necessity it will be more social than scientific. But do not fear for the scientific progress in our department. It is booming. I hesitate to write you what research is going on without closer contact to make the report accurate. Next year I'll report on two years' work. This sabbatical leave, being spent at the Johns Hopkins School of Hygiene and Public Health is most enlightening. I'm looking for new approaches to

the perinatal field, and being convinced that it is a public health problem, thought I'd better learn more about public health; so selected the best school I could find, with a strong department of maternal and child health, and here I am. Almost died the first two months with so much thinking; have survived (?) statistics, pathology, mental hygiene, public health administration, and epidemiology. This last subject has much to offer in the perinatal field, though they have never thought such problems were in their field, but they are. The Children's Bureau in Washington is getting more interested in this field which should produce results in the near future. During my "field work" time, I expect to improve my knowledge of other related fields, such as antenatal care, population control, deliveries in the home, etc. Got homesick for the operating rooms, so have been given privileges to work at Hopkins, and Baltimore City Hospital in anesthesia or obstetrics. Will be back at work at P.H. on June 1st, and after planning programs for one to five million people, will be glad to push a bag for one person once again. But it will have been a very broadening and worth while year.

There have been, and will be changes for many of you, all for the better I am sure. Joe Bartels has joined the teaching staff at the University of California, Norman Bergman has moved to Salt Lake City, Dick Weiss has moved from Michigan to Wilmington, Del., Otis Zacharias has teamed up with Al Sorensen in El Paso, Texas; Cecil Brown is now in Bethesda doing research; Rita Jacobs has joined the P.H. offspring at Memorial Hospital, N.Y.C.; under Bill Howland. The newest graduates are Joel Archer, at St. Vincent's, N.Y.C.; Cliff Bauer in private practice in Jamestown, N.Y.; Ben Hymes has joined Dex. Blake at Morristown Memorial Hospital; Graham Ronan is in a group practice of five fellows in Philadelphia; Eleanor Henry is in practice in Poughkeepsie, N.Y.; Lois Foster at St. Luke's Hospital, N.Y.C. The armed forces have claimed, temporarily, Warren Rossway, Ed Norris, Dick Matteo, Stan Gould, Howie Robbins, George Henderson; Nydia deJesus is back in Puerto Rico spreading the gospel; Harry Cordner and Dick Patterson back from Iran and Lebanon, are on the teaching staff. Mervin Prichard is in Schenectady, and Luciano Gabbriello is back in Milano, Italy.

In the near future, four of our attendings will take off for other parts; Dunc Holaday will become head of the department of Anesthesiology at University of Chicago. After 10 years with us, I know no one can truly fill his shoes, though someone will try. Seamus Lynch will go to Manhattan Eye and Ear Hospital, in private practice; and Al Levy, believe it or not, will become an obstetrical resident at Mt. Sinai Hospital, N.Y.C. Frank Moya will join Seamus. Our combined best wishes go with these four.

We have new blood on the attending staff in the form of Frank Moya, who is holding the front on the obstetrical front while I am away, and Cyril Sanger from England. Our perinatal team this year has several very interesting members, Gloria Bain, pediatrician from the Phillipines, Walt Tuchman, loaned from Obstetrics, Selwyn Crawford and Eric Burnard from England, Connie Berrien, Martha Baker, Catherine Russo and Mary Lou Darcy are our research nurses.

I have missed several marriages, such as Joan Crosier in Australia and Phyllis Frost, to which can be added Flaminio Camargo, Joel Archer, Howie Robbins, Bill Seibert, Rod Gabuya. New babies have arrived, or have not been previously introduced, in the families of Frost (2), Crosier, Chessar, Harris, Epstein, Balmeseda, Stein, Ngai, Wolkenstein, Schwartz, Archer, Berlin, Bauer. Please forgive the omissions.

Two further items: There will be a new medical science building built on the southeast corner of W. 168th Street and Ft. Washington Avenue which should afford much more laboratory space, better library and visual aids. Also, there is a new booklet on Resuscitation of the newborn infant, issued by the American Academy of Pediatrics, 1801 Hinman Ave., Evanston, Ill., on which about 20 of us worked for two years. If you want more copies for distribution to residents, attendings, et al., write them. It's good.

Do write, and visit, whenever you can. You will be Most welcome whenever you come. My Very best personal wishes to all of you, wherever you are. You are all part of a great movement to make the Patient the Most important part of any operation or anesthesia. Anything and Everything you can do to "individualize" the choice of drugs and anesthetic methods will be good.

Happy New Year to you, all!

Virginia ☺

Address List of Former Associates, P.H. Anesthesiology

Year
Leaving
P. H.

- 52 Alfonso Alfredo: Avenida Caracas #51-76, Bogota, Columbia, South America
 57 Aleniewski, Monica (Friedfeld) 646 Sanford Ave., Newark 6, N. J.
