

PUBLICATIONS

Dr. V. Apgar

1935 Studies of the cardiac output of anesthetized dogs during continuous and intermittent inflation of the lungs.
Humphreys, G. H., Moore, R.L., Maier, C. and Apgar, V.
J. thorac. Surg. 2: 468.

1939 Experience with Pontocain spinal anesthesia.
Apgar, V.
Curr. Res. Anesth. 18: 241-245, Sept.-Oct.

1942 Metabolic effects of anesthetic agents.
Rochberg, S. and Apgar, V.
Amer. J. Surg.

The treatment of untoward effects of nitrogen.
Apgar, V.
Anesthesiology 3: 265.

The combined use of ephedrine and epinephrine in spinal anesthesia.
Rochberg, S. and Apgar, V.
Anesthesiology 3: 49.

1943 Tetrachlorethylene as an anesthetic agent.
Foot, E.B., Bishop, K.B. and Apgar, V.
Anesthesiology 4: 288.

1944 Principles of anesthesia in plastic surgery.
Apgar, V.
Surg. Clin. N. Amer. April

Spinal anesthesia with monocaine formate. Results in 220 or more cases.
Rovenstine, E. A. and Apgar, V.
Anesthesiology 5: 40.

Nelson's loose leaf surgery. Section on anesthesiology
Foot, E. B. and Apgar, V.

1948 A nerve block clinic.
Apgar, V.
Curr. Res. Anesth. 27: 49-54, Jan.-Feb.

1949 Norepinephrine (Arterenol, Sympathin N) as a pressor drug.
Goldenberg, M., Apgar, V., Deterling, R. and Pines, K.L.
J. Amer. med. Ass. 140: 776-778, July

Continuous segmental epidural anesthesia with catheter via the caudal canal: a preliminary note.
Frumin, M.J. and Apgar, V.
Anesthesiology, November

- 1950 Oxygen as supportive therapy in fetal anoxia.
Apgar, V.
Bull. N.Y. Acad. Med. 26: 2nd series, 474-478, July
- 1951 Pheochromocytome. Anesthetic management during surgical treatment.
Apgar, V. and Papper, E.M.
Arch. Surg. 62: 634-646, May
- The use of norepinephrine (L-Arterenol) as a pressor drug with special reference to thoracolumbar sympathectomy.
Deterling, R.A. and Apgar, V.
Ann. Surg. 133: 37.
- 1952 Transmission of drugs across the placenta.
Apgar, V. and Papper, E.M.
Curr. Res. Anesth. 309-320.
- Pressure-time relations in the safe correction of atelectasis in animal lungs.
Day, R., Goddellow, A.M., Apgar, V. and Beck, G.J.
Pediatrics 10/5: November.
- 1953 Studies on resuscitation. An experimental evaluation of the Bloxson air lock.
Apgar, V. and Kreiselman, J.
Amer. J. Obstet. Gynec. 65/1: 45-52, January
- A proposal for a new method of evaluation of the newborn infant.
Apgar, V.
Curr. Res. Anesth. 260-267, July-August.
- Method of evaluation of newborn.
Apgar, V.
Curr. med. Dig. XX/12: December
- 1955 Neonatal anoxia: I. A study of the relation of oxygenation at birth to intellectual development.
Apgar, V., Girdany, B.R., McIntosh, R. and Taylor, H.C.
Pediatrics 15/6: 653-662, June
- The role of the anesthesiologist in reducing neonatal mortality.
Apgar, V.
N. Y. St. J. Med. 55: 2365-2368, August
- 1956 Anesthesia for vaginal delivery
Apgar, V.
J. Amer. med. Wom. Ass. 11/3: 83-86, March
- Infant resuscitation.
Apgar, V.
Postgrad. Med. 19: 447-450, May
- Resuscitation of the newborn infant.
Apgar, V.
Obstet. and Gynec. 8: September

- 1957 Pudendal Block: Two new techniques.
Apgar, V.
Curr. Res. Anesth. 36: 77-79, January-February
- Comparison of results to infant following maternal regional or general anesthesia for delivery.
Apgar, V.
N. Y. St. J. Med. 57/18: 2955-2956, September 15.
- Infant resuscitation.
Apgar, V.
Conn. med. J. XXI/10: 902, October
- Comparison of regional and general anesthesia in obstetrics.
Apgar, V., Holaday, D.A., James, L.S., Prince, C.E., Weisbrot, I.M. and Weiss, I.
J. Amer. med. Ass. 165: 2155-2161, December 28.
- 1958 The acid-base status of human infants in relation to birth asphyxia and the onset of respiration.
James, L.S., Weisbrot, I.M., Prince, C.E., Holaday, D.A. and Apgar, V.
J. Pediat. 52/4: 379-394, April
- Acid base homeostasis of the newborn infant during the first 24 hours of life.
Weisbrot, I.M., James, L.S., Prince, C.E., Holaday, D.A. and Apgar, V.
J. Pediat. 52: 395-403, April
- What is the relationship between obstetric anesthesia and analgesia and perinatal morbidity and mortality?
Apgar, V. (discussion leader)
Bull. N.Y. Acad. Med. 2nd series 34/5: 342-344, May
- Evaluation of the newborn infant: Second report.
Apgar, V., Holaday, D.A., James, L.S., Weisbrot, I.M. and Berrien, C.
J. Amer. med. Ass. 168: 1985-1988, December 13.
- Comparison of preschool Stanford-Binet and school-age WISC IQs
Schacter, F.F. and Apgar, V.
J. Educational Psychology 49/6: 320-323
- 1959 Perinatal asphyxia and psychologic signs of brain damage in childhood.
Schachter, F.F. and Apgar, V.
Pediatrics 24/6: 1016-1025, December
- 1960 Hydramnios and congenital anomalies.
Moya, F., Apgar, V., James, L.S. and Berrien, C.
J. Amer. med. Ass. 173: 1552-1556, August 6.
- 1961 Congenital Anomalies, ~~allied~~
Apgar, V.
The Bulletin Maternal and Infant Health VII/2: 18-23

- 1961 Human congenital anomalies
Apgar, V.
Amer. J. Dis. Child. 101: 249-254, February
- 1962 Resuscitation of the Newborn
Apgar, V.
Consultant (SKF, Phila.) January
- 1962 Five-Minute Diagnosis of Hidden Congenital Anomalies
Apgar, V.
Consultant (SKF, Phila.) June
- 1962 Further Observations on the Newborn Scoring System
Apgar, V. and James, L.S.
Amer. J. Dis. Child. 104:419-28, October
- 1962 Medicine's New Frontier
Apgar, V.
The PTA Magazine, January
- 1963 Intragastric Oxygen: Experimental Observations in
Newborn Puppies
James, L.S., Apgar, V., Moya, F., Kvisselgaard, N., Burnard, E.D.,
Brady, J., Tuchman, W., Crawford, J.S., and Holaday, D.A.
Acta Paediatrica 52:241-244, May
- Intragastric Oxygen and Resuscitation of the Newborn
James, L.S., Apgar, V., Burnard, E.D. and Moya, F.
Acta Paediatrica 52:245-251, May
- Heretic to the Continuum of Genetic Potential
Mellin, Gilbert W. and Apgar, V. Virginia
Alaska Medicine, September
- New and Useful Facts about Mongolism
Apgar, V.
Consultant, November-December

Dr. V. Apgar's publications

1964 Outcome of prematurity
Apgar, V.
Clin. Obstetrics and Gynecology 7/3:741-48, September

Drugs in Pregnancy
Apgar, V.
JAMA 190:840-41, November 30, 1964

1965 Perinatal Problems and the Central Nervous System
J.Am.Phys.Ther.Assn. 45:357-8, April
Apgar, V.

Medikamente in der Schwangerschaft
Apgar, V.
Fortschritte der Medizin Nr. 16, S.645 (1965)
